Selectmen's Meeting

SELECTMEN PARE BUDGET

Mattapoisett Selectmen met with the Finance Committee in more lengthy consideration of the reduction of the amount the town is still over the budget limit. Delay in the revaluation cost (\$110,000) together with other measures such as a level budget from Old Colony (\$25,000), level budget from Old Rochester (\$15,000), a cut in State Aid to Highways (\$15,000), if all materialize, could reduce the total to \$93,000 if cooperation is gained from the school committees. To reduce the \$93,000 it was recommended that \$23,000 be used from the stabilization fund to buy police cruisers - this makes the total \$70,000. A \$5,000 item from the District Nurses was picked up, total now \$65,000. A \$20,000 reduction from an undisclosed major town budget would then leave the town \$45,000 over budget.

Michael O'Brien, chairman of the Finance Committee, said that his committee has 5 or 6 options open to further reduce this figure.

Selectmen have been informed by Town Counsel Donald Fleming that the Z. M. Barstow Fund cannot be used to reduce the

town budget as it was left for scholarship purposes.

INTERVIEWED APPLICANTS

Selectmen interviewed the applicants for Mosquito Controlman and a seat on the Conservation Commission.

Thomas J. Grondski of 25 River Road and Richard Crouch of 3 Ridgewood Road sought the Mosquito Control position. Richard Crouch was voted.

Applicants for the Conservation Commission were Ken Dawicki, William Hickey and Clifford D. Tripp.

Special ORR Budget Meeting

There will be a special meeting of the Old Rochester Regional District School Committee on Wednesday, April 7th, at 8:00 p.m. at the Dr. Joseph C. Kunces Memorial Library, Old Rochester Regional High School, Mattapoisett, for the purpose of meeting with the Selectmen of the three towns to discuss the District's budget.

Arts Lottery Money

The Mattapoisett Arts Council has been allotted a small amount of money by the Massachusetts Arts Lottery Commission. This money is to be used for "arts projects"

Letters to the Editor

A great deal of attention has recently
been devoted by the media to various as-
pects of nuclear weapons, their use and
their effects. Thinking the unthinkable, as
it is termed. All around the world, people
feel a growing sense of frustration in the
thought that these weapons will at some
point be unleashed in our midst.

Rather than accept such a gruesome fate,
many citizens are taking positive steps to
assure that this ultimate conflict does not
occur. What can you do?

You can attend the next Mattapoisett Citi-

ing (April 8th at 7:30 p.m.). You can at-
tend Town Meeting and vote for the Nuclear
Freeze Petition. You can sign and circulate
the Nuclear Freeze Petition. You can write

parent I would like to join with Katheryn Ellis Nowak in urging everyone to consider very carefully the consequences of signing or voting for a Nuclear Disarmament Freeze.

Ask yourselves who would really benefit from such a freeze at this time?

It is not just a matter of how many nuclear missiles we have or Russia has, but rather what type of weaponry. I am sure most well-intentioned citizens realize that the Soviet Union has been building up her nuclear capacity at a very rapid pace during the past decade while we have not. Our missiles are old and outdated compared to those of Russia, which means we must develop newer and more up-to-date weapons before we are able to negotiate a nuclear freeze with that country.

I wonder how many of our townspeople realize that in July of this year the Soviet Union, for the first time, will have the capability of destroying all our missile bases with a first strike, killing approximately 50 million Americans? We surely cannot talk of any nuclear disarmament freeze under these circumstances.

As we have found out in the past, we cannot trust Russia to honor any nuclear freeze agreement. It would be, in my opinion, unpatriotic, if not downright foolhardy, to force our government into a position where

Rochester Historical Society

The March meeting of the Rochester Historical Society featured "Show and Tell". Members brought a variety of articles, ranging from newspaper clippings, photographs, several "what-cha-ma-callits", a collection of Victorian purses, and a cake which Eleanor Walker had baked in a dutch oven on top of her wood stove, which was served to all present.

The next meeting will be in May and will feature "Cars I have Loved and Hated", whereby the members will share their memories. Also featured will be a seedling and cutting exchange. Members and friends

U.S. Weapons Freeze

Editorial, D.C.J.

There is a sickening possibility that the so-called "Nuclear Weapons Freeze" could receive the support of a majority vote. It would be a terrible choice.

The term nuclear is the key motivator. Remove this distasteful word and the true thrust of the movement is clearer. How does United States Weapons Freeze grab you? It grabs me in the gut. It spells paralysis and defeat.

We are told by "freeze" advocates that both the U.S. public and the Soviet people do not want to continue to stock or ever use nuclear weapons. Let's grant that as 100% true. Such analogy is comparing apples to greyhound buses. What the people under

Communist rule think does not matter. Cradle to grave, these people are slaves contained by land mined walls.

The Communist leaders matter. The elite hard core leadership of the Soviets never followed our lead in any way, shape or form.

The United States rapidly demobilized

following World War II. The Soviets did not. Instead, they continue to maintain the largest standing army on earth. Why?

The United States rebuilt German and Japanese industry after World War II and then set them free as self-governing nations. The Soviets looted captured countries of entire factories. They control completely every captured nation and crush any attempt of a captured people to rise

from slave status.

The United States mothballed its great fleet after World War II.

The Soviet fleet has been steadily built up to its present major force. Why?

The United States cut our spending on defense to peacetime levels.

The Soviets spend more of their national income on armament than any other nation, just as if they were at war. Why?

Perhaps it is because they are at war. The leaders of international Communism are willing to pay any price to extend their influence no matter what the cost to satellite or Soviet citizens or no matter what they eat of if they eat.

Never, not one time have the Soviets followed any United States example toward peacetime disarmament.

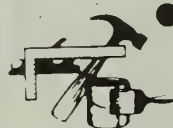

Rather, the Soviets have steadily built and maintain the mightiest armed camp ever assembled.

One shield protects the United States. We are protected by the atom. On no other level can this country stand against Soviet power. Like it or not, the atom and our delivery system keeps the peace. Like it or not, a balance of power holds the international Com-

munists in check.

The Soviets are in check but not at bay. Look at Central America. More than 50 years ago the Communists wrote the plan to cut North and South America apart and that is precisely what they are doing at this moment. They are past masters at using other bodies to fight for them. They are geniuses at using manipulated dupes within a target country.

If the "United States Weapons Freeze" (substitute nuclear if you like) should become fact, it should be a short time until our balance of power would vanish. No missile would have to be launched. A call on the hot line would do it all. The Soviets would not want to destroy this country. They want to rule it. They want to loot it.

A nation's army and navy is not a democratic institution. You cannot run a military force by majority vote. It would be chaos. It must have discipline. It must have a single command. We have a Commander-in-Chief. He is a civilian according to our Constitution. The President is that man. His responsibility is to protect this nation. He should not be influenced in this resolve by a vote of emo-

Theatre Clean-up

The Waterfront Historic Area League (WHALE), the new owner of the State Theatre, is looking for volunteers to assist with the initial clean-up stages of its project to restore the theatre to its 1923 appearance, when it opened as the Zeiterion. WHALE's commitment to save downtown's last theatre springs from its belief that for New Bedford's downtown to be the vital core that it should

GALA BENEFIT CONCERT AT SMU

A gala benefit concert to raise funds for the "Save SMU" task force in support of its fight to preserve the academic standing of Southeastern Massachusetts University, through improved state funding, will be held on Saturday, April 17, at 8 p.m. in the school's main auditorium.

Performing will be the Cobert Family Trio which is contributing its services in the cause of rescuing SMU from its financial plight. The trio includes Jacqueline Bazinet Cobert, soprano; Josef Cobert, flutist; and their son, Claude Cobert, flutist and pianist. Both Mr. and Mrs. Cobert are on the music

faculty at the University.

Ms. Cobert, who studied with outstanding vocal masters and operatic coaches in this country and Europe, has given recitals at Carnegie, Jordan Symphony and Town Halls and has performed with the Goldovsky Opera Company and with leading orchestras including the Boston Symphony and the Pasdeloup Symphony. She was the only American artist to participate in the Mozart Bicenten-

nial Festival in Paris. Of her singing, a Boston Herald critic wrote, "Miss Bazinet has one of the most beautiful trained voices I have heard", while a New York Herald Tribune critic stated that "Miss Bazinet sang the part to perfection ... a glittering performance".

As flutist, Mr. Cobert played with the New Orleans Symphony, Goldovsky Opera Theatre, American Symphony Orchestra League, the Marlboro Festival Orchestra, and for Broadway musicals. As a conductor, he directed the New Bedford and Fall River Symphony Orchestras and was guest conductor with the Brockton Symphony Orchestra. The famous flutist, Marcel Moyse, named him "one of the best American flutists". Professor Cobert studied at the Paris Conservatory and received bachelor and master's degrees from Boston University, and a Doctor of Music degree from Florida State University.

Claude Cobert during his high school years served as principal flutist with the Boston Youth Orchestra and the Massachusetts Wind Ensemble. He received his Bachelor of Music from the University of Toronto where his flute teacher, Louis Moyse, commended Claude as an "exceptionally talented young artist with outstanding virtuoso qualities".

NEW BEDFORD WHALING MUSEUM
OFFERS CHILDREN'S VACATION ACTIVITIES

The New Bedford Whaling Museum (Old Dartmouth Historical Society), 18 Johnny Cake Hill, New Bedford, will sponsor two workshops for children during the April 19-23 school vacation.

The first workshop is titled Exploring Your Neighborhood and the World. This program is designed to provide an exciting art ex-

perience for children, grades 3-5. The participants will visit the Russell-Purington Panorama, a tour around the world of the 1840's, as the initial step in creating a representation of the world in which they live -- their own neighborhood.

There are three sessions to this workshop, April 21, 22 and 23. Each session will be from 9:30 to 11:30 a.m.

MATTAPOISETT SEWERAGE SURVEY TO BEGIN

A house to house survey of sewage disposal problems in certain areas of Mattapoisett will be undertaken by the Town's consulting engineer, Tighe & Bond/SCI, the week of April 5th.

The survey is part of a comprehensive water pollution control study that is being accomplished by the Board of Selectmen to determine the long term sewerage needs of the community.

An initial card survey has been completed in which 1374 houses were asked a number of questions dealing with on-site sewage disposal problems. Cards returned have identified some areas in Mattapoisett where homes experience year-round and seasonal problems with the operation of their septic systems. The reasons for the problems can be attributed to one or more of the following: poor soil, poor surface drainage, groundwater problems, small lot sizes, undersized system, etc.

Using general information gathered from the card survey, Tighe & Bond/SCI will review on-site conditions in some areas of Mattapoisett to verify the severity of the problem and to look for possible solutions to the problems.

Three or four employees of Tighe & Bond/SCI will be conducting the survey generally between the hours of 8 A.M. to 6 P.M. (dusk). Residents who are home will be asked a couple of questions about their system followed by a brief visual inspection of the septic tank and leach field area. In some cases, pictures may be taken to document the kinds of problems that are found.

As with the card survey, the information obtained by Tighe & Bond/SCI will not be specific to a particular home. The engineers will only try to verify the kinds of problems that may exist in the Town of Mattapoisett.

For identification purposes, the Tighe & Bond/SCI employees will have copies of letters signed by the Mattapoisett Board of Selectmen authorizing them to perform the survey work in Mattapoisett. In addition, the house survey work will be coordinated through the Mattapoisett Police Department. Your cooperation in this survey would be appreciated by the Board of Selectmen.

A second public meeting will be held in May, 1982 to review the status of the water pollution study and answer any questions you may have on work completed. The Board of Selectmen welcome your participation.

On Wednesday, June 16, a trip is scheduled to Blithewold Gardens and the Haffenreffer Museum in Bristol, Rhode Island.

A turn-of-the-century estate on Narragansett Bay, Blithewold was the summer home of August van Wickle. The gardens

were laid out by John DeWolf, the New York landscape architect, and include various gardens and a network of paths leading in and out of the woods along the water's edge. South of the greenhouses, an open lawn is ringed with unusual specimen trees, including a magnificent 80-foot Sequoia, the largest east of the Rockies. Following dutch-treat lunch, the group will visit the Haffenreffer Museum at Mount Hope, which contains archaeological and ethnological
